Modern Slavery Statement

Aquila is a specialist engineering company in the nuclear sector and is a wholly owned subsidiary of the Calder Group of companies. We are committed to preventing acts of modern slavery and human trafficking from occurring and upholding human rights within our business and supply chain and impose the same high standards on our suppliers.

To find out more about the nature of our business, please visit www.aquilaeurope.eu.

As part of our commitment to combating modern slavery, we have implemented a standalone policy on anti-slavery to embody our attitude to anti-slavery practices. We also provide dedicated training to our members of staff who operate within those areas of the business where modern slavery may be likely to occur.

In order to continually deliver pragmatic solutions to the nuclear sector, we work with a range of suppliers including manufacturers and distributors. As part of our efforts to monitor and reduce the risk of slavery and human trafficking occurring within our supply chains, our procedures have been reviewed to seek assurances from new and existing suppliers that they comply with anti-slavery requirements, as well as our own policies.

Our procedures are already designed to establish and assess areas of potential risk in our business and supply chains; monitor potential risk areas in our business and supply chains; reduce the risk of slavery and human trafficking occurring in our business and supply chains; and provide adequate protection for whistle-blowers.

This statement is made voluntarily in accordance with section 54(1) of the Modern Slavery Act 2015 and constitutes Aquila's anti-slavery and human trafficking statement for the financial year commencing 01/06/2019 and ending 31/05/2020.
